Career Objective: After enjoying an expansive 20-year career with Bank of America, I have embarked on a career in the Healthcare Industry, over the past six years. My ability to quickly adapt and adjust to new processes has been a key attribute to my successful transition into the Healthcare Industry. I'd like to venture into more technical roles within Healthcare; as the skills attained in both industries has afforded me the insight for understanding end-user needs.

Related Skills: OnBase Client/ Instamed / Insurance Payor Website Administrator/ EPIC Hospital Billing / Counterpoint/ MS Word/ MS Outlook(Intermediate)/ MS Excel (Intermediate)/ Visio / SharePoint/ Advanced 10 key data entry skills/ EMBP/Rally (Agile) / Kronos / Access Database / Medicaid/Medicare/ Tricare/CHAMPVA/ Recoupment processing/ Cash Posting data analysis/ Insurance and Patient (payment posting and adjustments)/ A/R reconciliation/ Audit review/ Experienced Interviewer for role competencies/ Experienced OJT (On the job) Trainer

Qualifying skills:

- Achieved 3-year Certification as Revenue Cycle Specialist (CRCS), November 2020 from the American Association of Healthcare Administrative Management (AAHAM).
- I am currently attending FSCJ pursuing an Associates of Science degree in Computer Information Technology (CIT). Expected graduation timeframe Winter 2026

CTS 1133C Software Configuration

- Ability to demonstrate and explain the mechanics associated with IP addressing.
- Possess the ability to create and run a batch file from the command prompt.
- Performed Windows file and folder management from the command prompt, including creating, copying, sharing, setting attributes and security options.
- Prepared disaster recovery plan and a change management plan.
- Familiar with MAC OS and Linux environments.

- Three years of experience in Healthcare Accounting in the following roles: PFS Supervisor, PFS Team Leader, PFS Account Clerk II; performing daily accounting functions to ensure all incoming cash received is processed accurately and within department deadlines.
- 15+ years of combined Supervisory/Managerial experience with direct reports in both Financial Operations & Healthcare Environments
- 20+ years of combined experience in Customer Service/Telemarketing/Collections
- 15+ years of on-boarding of temporary & permanent staff by evaluating candidate's qualifications/ skill sets against posting requirements to select the highly qualified candidates to target successful adaption to job role(s).

Employment:

- Perform compensation analysis for annual merit increase and bonus determinations for staff with minimal senior level manager oversight.
- Problematic coaching for behavioral improvement, demonstrate excellent verbal & Written communication skills in support of business objectives.
- Proven experience writing & maintaining departmental procedures/process guides.
- Excellent organization and time management skills
- Self-motivated with a “Can Do” attitude
- Strong Interpersonal skills
- Demonstrate the core values of the organization
- Results oriented, ambassador for success by consistently delivering departmental goals

(09/2021– current) UF HEALTH JACKSONVILLE, FL

(09/2021) Supervisor (Patient Financial Services-PFS)

(03/2023) – promoted to Cash and Refund Manager (Patient Support Services- PSS)

- Provide support to team along with various levels of management with complex payment posting inquiries to drive prompt problem resolution.
- Perform general ledger reconciliation in support of internal Accounting monthly review activities.
- Access UF Health bank website to retrieve incoming wire details for daily payment posting and reconciliation.
- Respond to external audit requests, by researching monetary patient and/or insurance payment posting transactions; provide requested supporting documentation.
- Work in collaboration with Reimbursement Director and team members, to identify payment posting gaps and/or provide explanation of variances in Peoplesoft monthly reporting tool, for non-patient cash such as Covid19 takebacks submitted via 835 file PLB (Provider level adjustments).
- Consistently lead Cash posting team of 10-13 employees, to achieve monthly payment posting average goal of \$2.5 million posted daily. (During both June/July 2022, team achieved monthly bonus at the gold level).
- Utilize intermediate excel skills to create pivot tables of team results.
- Conduct training for all payment posting processes for existing/new hires for all cash posting processes, to ensure understanding and accurate execution of daily responsibilities. (Provided training for over 5 new hires to UF Health for EPIC cash processing)
- Perform performance reviews by gathering productivity statistics for employees based on function to ensure equitable collaboration within the team.
- Provide weekly cash posting statistics to senior management, to stay abreast of team progress.
- Handle complex research inquiries for missing, aged or misapplied payment posting by utilizing various resources such as: Huntington Revapp, PNC bank website, internal trackers or Trizetto.
- Participate in employee staffing interviews in an effort to onboard the best candidates for the open requisition based on skillsets identified during the discussion. Provide feedback to senior management upon interview completion.
- Trust-worthy employee, able to uphold confidentiality and privacy standards.
- Diplomatic in communications with Attorneys’, while assisting in patient balance negotiations for PFS legal.
- Support PFS legal team by review county websites, internal applications (OnBase, EPIC) to determine lien filing status.
- Create Ad-hoc training guides for day to day processes to ensure reliable resources are available to the team.
- Demonstrate a thorough understanding of Remittance Advice/Explanation of Benefits

(EOB) detail, provide training to employees on how to interpret these forms as they vary from Payor to Payor.

- Recognize team success and individual results during quarterly team meetings.
- Review and prep incoming denial correspondence by adding the applicable remittance denial coding for EPIC posting, to ensure proper routing to the various work queue(s).
- Process Non-patient payments via Counterpoint for Human Resource Retiree/Leave checks, Pharmacy (Caremark/Access Health) payments.

(04/2020– 09/2021) UF HEALTH JACKSONVILLE, FL

(04/2020) Team Lead– (Patient Financial Services-PFS)

- Developed a standardized research intake process form for Cash Mgmt. The implementation of the Cash Mgmt. form (CMF), accessible via the UF Health Bridge occurred in less than 90 days from my transition to the Team Lead role.
- Perform all levels of training (beginner, remedial, advanced) to the staff to ensure solid understanding of the vast functions performed daily by the Cash Posting team.
- Create document process guides for various functions performed by the Cash Mgmt. team to improve efficiencies amongst the team, to greatly decrease error potential.
- Provide routine updates to Management regarding Cash Posting progress such as: total outstanding volumes for all payment sources/channels, Payor updates and research unresolved EOB issues etc.
- Process Non-patient payments via Counterpoint for Human Resource Retiree/Leave checks, Pharmacy (Caremark/Access Health) payments.
- Improved oversight of transactions processed in Counterpoint for all Cash Mgmt. staff (Cashier's Office & Pharmacy) with the deployment of monthly data reporting, resulting in increased visibility of funds collection, as well as a centralized storage location of the transactions.
- Seek opportunities to improve daily processes by proactively submitting Helpdesk requests as appropriate, such as: RMO edits/updates to EPIC for designated Payors, allowing remittance data to auto populate into the HB Posting file or performing SUP environment testing for application/file changes.
- Interact daily with various offsite clinics, internal and external teammates providing EPIC navigational support and create solution-based approach for general to complex payment related inquiries.
- Perform administrative support to Payor websites.
- Act as an ambassador for the team by exploring innovative ways to deliver stellar results, ensuring the success of the department.
- Provide supervisory oversight to the staff for day to day functions, using sound judgements and critical thinking skills to eliminate production barriers and drive team's success.
- Payment posting of Medicare/Medicaid/Tricare/CHAMPVA; while completing complex recoupments when overpayment recovery is required at the Provider level.
- Handle escalated patient payment issues in support of the Customer Service Team Lead & Supervisors as needed.
- Thorough understanding of Remittance Advice/Explanation of Benefits (EOB) detail, provide training to employees on how to interpret data.
- Extensive understanding of PLB (Provider lever adjustment) processing via details retrieved from the 835 files
- Review and prep incoming denial correspondence by adding the applicable remittance denial coding for EPIC posting, to ensure proper routing to the various work queue(s).
- Perform administrative duties for incoming check deposits by completing deposit slips and required forms for regular deposit into UF Health designated accounts.
- Recognize staff using the Cheers4 Peers reward tool and celebrate annual events such as staff birthdays by decorating work stations.

(10/2019– 04/2020) UF HEALTH JACKSONVILLE, FL

(10/2019) Clerk Accounting II– (Patient Financial Services-PFS)

- Perform timely processing of Insurance payments as part of the Co-Pay Assistance process by manually keying credit card transactions for payment posting in EPIC.
- Disburse non-narcotic supplies to Pharmacy patients upon EPIC validation of City Contract Coverage and noting EPIC as required.
- Conduct weekly audit reviews/reconciliation of UFJPI (University of FL Jacksonville Physicians, Inc) for checks received on the Physician side in error.
- Created process guides outlining process actions required for the following functions: Co-Pay Assistance, UFJPI check process (including payment posting steps), Cash Balancing form Audit/Checklist and PFS Cash Management to improve efficiency and reduce erroneous processing errors.
- Perform cash balancing for “End of Day” monetary transactions via CounterPoint, petty cash and the safe, housed in the Cashiers Office to prevent loss & exposure to the hospital.
- Responsible for the reconciliation and accuracy of insurance and patient payments and adjustments.
- Maintain hospital records by auditing daily financial transactions received through different channels: in-person, mail and email from Financial Representatives across the organization
- Effectively communicate with business partners from various UF Health clinics, to obtain required documentation for audit purposes, such as Settled Activity reports, Quick Payment reports, copies of deposit slips/checks and Receipt of Payment from EPIC.
- Scan images via OnBase Client to the appropriate patients HAR account for future tracking and retrieval.
- Perform daily reconciliation of incoming funds received by the PFS cash team via the BBVA bank website.
- Complete data analysis by reformatting files into a master excel worksheet for use by Cash Posting, Accounting and Supervisors.
- Post electronic wires for various payors by performing preliminary review of the HAR account, updating Insurance Coverage and Liability fields as required for payment posting.
- Conduct extensive research for complex payors such as Tricare, Tricare for Life, Molina and United Healthcare for offset postings for patient HAR accounts.
- Extensive understanding of PLB (Provider lever adjustment) processing via details retrieved from the 835 files
- Partner with Follow-up Specialists, Accounting, Revenue Integrity when applicable to complete posting corrections.
- Support training efforts amongst teammates by conducting side by side training on the following processes: Payor Websites, BlackHawk, Converge, Co-Pay Assistance, UFJPI /PFS check depositing, UFJPI file audit to ensure the payments processed each day were posted to the desired HAR account(s)
- Assist management with ADHOC research requests from items ranging from providing Payor validations via Trizetto to creating Helpdesk tickets to enhance system functionality and attend management meetings upon request.

(06/1998 – 05/2019) BANK OF AMERICA/MERRILL LYNCH JACKSONVILLE, FL

(08/2016) Vice President; Market Leader Doc & Loan Admin- Attorney**Prepared- AP**

- Provide support for simple to complex commercial credit fulfillment requests for credit actions with a TRE (Total Risk Exposure) of \$25 million dollars and greater by performing documentation review of file data prepared by Outside counsel (Bank Attorney), while performing internal audit to ensure the accuracy of booking data captured on the approval document (CAM or CARMOD)
- Approve monetary transactions, up to 75 million dollars via AFS Wire & FDES for direct reports and business partners to ensure that the loan funded timely and accurately.
- Perform due diligence research to ensure bank policies and procedures were in adherence, to reduce Risk and Operational Loss to the bank
- Effectively coach employees and AP team to be proactive by consistently seeking opportunities to mitigate exposure to the bank by identifying, escalating, and debating problematic findings to improve audit results.

- Conduct new hire appicate prescreening of resumes for qualified candidates.
- Provide salary recommendations to Human Resource partners, upon new hire selection.
